

# Install ProjectDox Components IE 11

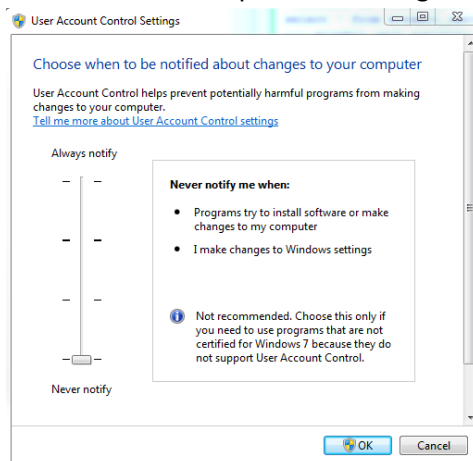

---

**Review Date: 01/4/2016**

**Overview** – This Document assumes you are using Internet Explorer 11

## How to Install ProjectDox

1. From Internet Explorer navigate to <https://planreview.dbs.idaho.gov/projectdox>
2. From the Tools menu select Compatibility View Settings
3. Add the plan review website to the list of sites
4. From the tools menu select Internet Options
5. Select the Security Tab
6. Select Trusted Sites and then click the Sites button
7. Click the Add button (<https://planreview.dbs.idaho.gov> should have prepopulated, if it did not type in the URL manually)
8. From the Tools menu select Pop-up Blocker and disable
9. Once complete refresh or close and re-open IE to refresh settings
10. You must be an administrator on your PC to install ProjectDox. If someone other than yourself maintains your PC, they may need to run perform this for you.
11. Select the start button on the bottom left of your screen. 
12. In the box that says "Search programs and files" type UAC and press enter. You should see the user Account Control Settings box as see below. Set it to never notify. (You can set this back to the previous setting after ProjectDox is installed)

13. If prompted to reboot, do so and then continue.

14. Go to the ProjectDox Login page here. <https://planreview.dbs.idaho.gov/projectdox/> Select Install ProjectDox Components at the bottom left.

15. After the install, login with your email address and password.
16. The first time you click on a project you will be prompted to install the Bravia client. Select allow and let it install.
17. The first time you upload a document, you will also be prompted to allow an add in to be installed. Allow it as well.
18. Done!
